Vol. 4. No. 9.

Maxton, N. C.

April, 1942.

Entered as Second Class Matter August 19, 1938, at the Post Office at Maxton, North Carolina, under Act of Congress August 24, 1912. Published monthly by Presbyterian Junior College for Men.

FORM OF BEQUEST

I give and bequeath to the Presbyterian Junior College for Men, Inc., located at Maxton, N. C., the following (here describe real estate, etc., or \$ -----, or the following stocks and bonds).

You are invited to correspond with the President concerning opportunities for investing in Christian education. Memorials of small sums may be established in the endowment funds or in larger amounts by the erection of buildings or by providing facilities for student self-help. There is a need for many friends of Christian education who will indicate their purpose to contribute annually to this educational ministry to youth and thus help establish a living endowment.

“More real moral power issues from some small colleges whose atmosphere is pervaded with the spirit of Christianity and where Christ is held up as the one to emulate, than from a great university where mere knowledge is the object sought and where both the restraints and the moulding influence of the Christ spirit are absent.”—St. Louis Globe-Democrat.

BUILDING CHRISTIAN MANHOOD

is the task of Presbyterian Junior College. It strives to do more than give a good academic training. It seeks to develop well-rounded Christian character.

SUPERVISION OF STUDENT ACTIVITIES

is provided by the Dean and carefully selected student Monitors who reside in the dormitory, thereby assuring to the students gentlemanly conduct and wholesome influences at all times.

ATHLETIC TEAMS

trained under the supervision of the Coaches participate in baseball, basketball, football, tennis and track contests. Golf is available. Every student takes part in the physical training program.

AMPLE SOCIAL AND RELIGIOUS ACTIVITIES

are provided under the supervision of the Director of Student Social and Religious Activities.

A STUDY PERIOD

of two hours is observed by the student in his own room.

INDIVIDUAL ATTENTION

to the need of each student is facilitated by small classes. This makes possible our

HIGH SCHOLASTIC STANDARDS

which have been responsible for the

SUCCESS OF OUR GRADUATES

at leading college and universities and in the business world. We seek to keep

STUDENT CHARGES LOW AND STANDARDS HIGH.

Courses offered are listed on pages 32 through 63.

HISTORY

The Presbyterian Church has a long tradition of emphasis upon education. Presbyterian Junior College for Men is located in territory which began to be settled by Scotch Highlanders even before 1729 when the province was divided into North and South Carolina. Ten of the pioneer academies in North Carolina were founded by Presbyterian ministers, and six of the seven members of the first class at Chapel Hill (University of North Carolina) followed their Presbyterian minister-schoolmaster from his classical academy when he became first professor at Chapel Hill. In 1837 Presbyterians founded Davidson College, which has exerted a large and beneficent influence in the life of Church and State. Presbyterian Junior College is a logical development in this traditional service to mankind through Christian education. It is heir of the rich heritage which reaches back into the Middle Ages when the Church was the mother of learning and when the foundations of Western culture were

laid by the establishment of the European universities under the auspices of the Church. Seeking to be broad and tolerant as Christian love, Presbyterian Junior College is at the same time loyally true to historic Christianity and bases its teachings upon the truths revealed in Scripture. It believes the finest mental development must be accompanied by moral and spiritual growth, and so seeks to guide young men in the way of Christ, the Light of the World.

The junior college movement is comparatively recent. In 1900 there were only two junior colleges in the United States. So favorably have the educational values of junior colleges been received by educators and patrons that in 1940 there were over five hundred and seventy-five junior colleges in operation.

On September 28, 1927, the Trustees of Elise High School presented an overture to Fayetteville Presbytery seeking authority to establish a junior college in connection with that institution. Elise Academy had been begun by Fayetteville Presbytery when, in 1904, Rev. Robert S. Arrowood, a home missionary of the Presbytery, opened a small school at Hemp, N. C. Mr. John B. Lenning, capitalist and railroad builder, gave land for the school, and the new enterprise was called Elise in honor of his daughter. It was provided that "The Bible shall be used as a textbook throughout the school in such measure and proportion as the board may determine so as to make the school distinctively a Christian school." The purpose of the school was unselfish Christian service to young people. Before its consolidation with Presbyterian Junior College in 1940, it came to be widely known as an outstanding preparatory school, attracting students from a wide territory. It is noteworthy that many of its graduates became ministers.

The request of Elise Academy, in 1927, that a junior college be established, was but a crystallization of a general

feeling that there was a real need in this part of the Lord's vineyard for such an institution. Fayetteville Presbytery resolved, "That we recognize the need of a junior college (for men) and recommend that such an institution be established as soon as possible." A committee of five members was appointed to investigate the question. A similar committee was appointed by Mecklenburg Presbytery. These committees made a thorough study of the matter and in their report to a joint session of the two Presbyteries held in the auditorium of Carolina College at Maxton, North Carolina, on November 29, 1927, endorsed the plan to establish a junior college and recommended that the offer of the owners of the Carolina College property at Maxton be accepted and the institution located there. The two Presbyteries recommended this report of their committees to the Synod of North Carolina.

Carolina College had been built by the Methodist Church and opened as a college for women in 1911. At the time of the Duke legacy there was a sentiment favoring concentration upon Duke University, and the Methodist Conference had voted to close Carolina College.

The Synod of North Carolina met in special session in the auditorium of Carolina College on February 21, 1928, to consider the Presbyteries' recommendations. After a full discussion of the whole question the Synod resolved to establish a junior college at Maxton and to accept the generous offer of the Methodist Conference of North Carolina to sell the Carolina College property. A Board of Trustees consisting of eighteen members was elected, one trustee from each presbytery and nine trustees at large. The Board was authorized to procure a charter under the laws of the State of North Carolina for the Presbyterian Junior College for Men, the name chosen for the new institution. It is owned and controlled by the Synod of North Carolina through its elected Board of Trustees. The Board of

Trustees was further authorized to acquire a title to the Carolina College property and to establish and set in operation a junior college at Maxton.

A charter was obtained by the Trustees from the State of North Carolina. Gifts amounting to \$20,000.00 were secured and the Carolina College properties consisting of eighteen and one-half acres of land on which were situated the administration building, dormitory and president's home were acquired. The \$15,600 balance of the purchase price was borrowed. This plant, representing an investment of some \$200,000.00, was practically new and furnishes excellent facilities for the college. Mr. J. P. Wiggins was generous of his time and effort in behalf of the College in this organization period.

Rev. R. A. McLeod, the superintendent of Elise Academy, was elected to the presidency and a teaching staff assembled and the college opened September 11, 1929 with an enrollment of eighty-four. The depression came on only a few months later. However through the grace of God and the self-sacrificing efforts of the faculty and trustees, the college managed to come through the depression with a growing recognition of the quality of its educational standards and methods.

The death of Mr. McLeod on January 5, 1932 was a serious blow to the young institution.

Mr. R. G. Matheson, Jr., served as president from 1932 to 1934. During his term of office the enrollment of the college department had a considerable increase, the budget was balanced, with the help of a self-sacrificing faculty, and the present gymnasium built with materials furnished by students on accounts and labor provided by the CWA.

Rev. P. Cary Adams served as President from 1934 to 1938. Improvements continued to be made and the student body to grow. An attractive cottage near the campus was the

gift of Mr. T. B. Upchurch of Raeford, N. C. A tract of five and one-half acres was given by Mr. D. A. Patterson and has been made into an athletic field.

After the financial depression, by the fall of 1937 it was found that the unpaid balance of the original purchase price had mounted, with accumulated interest, to \$28,000.00 and that operating debts had been incurred. The Board of Trustees made Professor J. O. Mann, Jr. Business Manager for the College. By balancing the budget and by rigid economy, in 1938 the entire operating deficit of \$20,000.00 was retired with the help of generous gifts by friends of the college.

Upon the resignation of President Adams in 1938, Rev. Louis C. LaMotte was elected to the presidency. There is an increasing emphasis by the faculty on the religious and social life of the students. Individual personal guidance of each student is emphasized. The aim is the developing of well-rounded Christian manhood.

In February, 1939, Mr. W. H. Belk and Mr. R. L. McLeod offered to contribute over \$20,000.00 in payment upon the purchase price debt when the balance of the debt should be discharged. The Church responded and the debt which stood at \$33,169.43 on the books of the college in February was all paid and the mortgages were burned at commencement. Renovation and improvements of the physical plant have continued. A Physics Laboratory and Mechanical Drawing Room have been added. At the opening of college in the fall of 1939 the gift of the Anstress McLean Memorial Campus was announced. Mr. and Mrs. Adolphus Alexander McLeod and their daughter, Miss Mary Stewart McLeod, deeded the college thirty-two and one-half acres adjoining the rear campus to be known as the Anstress McLean Memorial Campus in memory of their Mother and Grandmother, who was born on the tract as Miss Anstress McLean. Provision was made for the Anstress McLean Memorial Loan Fund which is mentioned elsewhere in the catalogue. The Civil Aeronautics

Authority of the United States Government selected Presbyterian Junior College for the establishment of a Civilian Pilot Training Unit in 1939.

The first summer school was held in 1940. A new hangar has been prepared to house the training planes. A small golf course has been constructed on the rear campus. There have been several gifts of books to the library, the largest being the deposit of the library of Dr. Watson M. Fairley. The college endowment committee has purchased the residence occupied by the president of the college. The endowment fund is slowly growing.

In the spring of 1940 the trustees of Elise Academy decided to sell the building at Hemp to the county for a public school. A movement was started among the alumni of Elise to consolidate Elise Academy with the preparatory department of Presbyterian Junior College. The Elise Trustees took action, a part of which is as follows:

“The Board of Trustees of Elise Academy recommends to Fayetteville Presbytery that Elise Academy be consolidated with the Presbyterian Junior College, and that all records, small properties, and whatsoever may be transferable, be transferred to Presbyterian Junior College for Men, Inc., Maxton, N. C., together with the good will of the Board of Trustees of Elise Academy.”

A permanent exhibit of pictures, plaques, and other mementos of Elise has been arranged at Presbyterian Junior College. One-third of the funds from the sale of the Elise property has been assigned to Presbyterian Junior College and will be known as the Elise Memorial Endowment Fund. The preparatory department, consisting of the 10th, 11th, and 12th grades, has as an alternate title Elise Senior High School, thus keeping in perpetuity the memory of the great service rendered by Elise Academy. Alumni of Elise are automatically alumni of the consolidated school. By this

consolidation in 1940, the school which began in 1904 has come to be reunited with the junior college which it was instrumental in establishing in 1928. The preparatory department is given increased prestige and emphasis by this consolidation. Zeta Chapter of Phi Rho Pi, Forensic Society, was added.

During the summer and fall of 1941 considerable improvements were made to the College plant. The business office and registrar's office were relocated next to the president's office. The aviation laboratory was divided into an engine department and an aircraft department and a new physics laboratory was equipped on the second floor. The mechanical drawing room was relocated and improved. Dr. George A. Works, of the University of Chicago, School of Education, and his assistants made a survey of the College by request of the administration with a view to strengthening and perfecting the educational program. Mr. W. H. Belk, of Charlotte, offered \$5,000 for endowment when his gift will make the total endowment \$50,000 and another gift of \$5,000 when his gift will make the total endowment \$100,000. Earnest efforts are being made to secure other gifts which will meet these conditions.

The beginning of war has brought about increased interest in the Civilian Pilot Training Program. The Navy V-1 program has been accepted for the students who wish to volunteer and remain in college. An aviation mechanics course is being added with the opening of the all-summer accelerated program on June 2nd, 1942.

OPPORTUNITIES FOR INVESTMENT IN CHRISTIAN EDUCATION

With all debt retired the College looks to the Church for help in entering into an enlarging service. Financial objectives are:

1. Funds for the endowment required by the standards set up by the Southern Association of Schools and Colleges.
2. Funds for further renovation and improvements to the plant.
3. Funds for a new dormitory to house the increasing enrollment.
4. Funds for establishing scholarships for needy students.

LOCATION AND EQUIPMENT

Presbyterian Junior College is located in Maxton, North Carolina. Maxton is only about sixty miles due south of the geographical center of North Carolina. Within a radius of forty miles of Maxton are Pinehurst and Southern Pines, Fort Bragg, Aberdeen, Fayetteville, Hamlet, Rockingham, Raeford, Lumberton, Rowland, Fairmont, Chadbourn and St. Pauls; and over the fifteen mile distant South Carolina line in the same radius, Cheraw, Bennettsville, Society Hill, Dillon and Marion. It is on the S. A. L. Railroad between Wilmington and Charlotte and on the A. C. L. Railroad between Fayetteville and Columbia, S. C. United States Highway 74 passes through Maxton and connects seven miles away at Laurinburg with U. S. Highways 15 and 501. The paved state route 71 goes through Maxton. Bus connections are convenient. The Maxton airport is on the Eastern Air Lines north-south airway and is frequently used by army aviation.

Maxton is three miles from historic Center Presbyterian Church founded in the pioneer days by the Scotch Highlanders who settled Robeson and adjoining Scotland counties. Near this church Floral College flourished before the War between the States. A tradition of simplicity, character and culture stamps the life of Maxton. Twelve miles away at Red Springs the well-known Flora Macdonald College for young women is located. In Maxton are active Presbyterian, Methodist and Baptist Churches, a community library, weekly newspaper, various civic and women's clubs, good schools, and other community assets, and several strong rural Presbyterian Churches are nearby. Maxton had a population of 1,652 in 1940. The student is free from the distractions of a large city and enjoys a cordial hospitality in the homes of

a friendly people who have sent out many sons to serve as leaders in various walks of life, especially in the Church.

When one desires the facilities of a larger center, Laurinburg is only seven miles distant with its hospital, stores and specialized services.

GROUND

The campus of Presbyterian Junior College is spacious and beautiful. It comprises fifty-seven acres, including the athletic field. The front faces on one of the residential streets of Maxton and consists of a smooth, level lawn dotted with a variety of plants. The back is a wooded grove of native dogwood, oak and long-leaf pines. Drainage conditions are well-nigh perfect, thus providing for all year round outdoor athletics. The grounds are amply large for all forms of activities.

ADMINISTRATION BUILDING

This is a handsome and commodious structure, finished in pressed brick with stone trimmings. It contains three Administrative Offices, a large Reception Room, Library, Reading Room, an Auditorium with a seating capacity of five hundred, three Laboratories, a Student Christian Association Room, nine Class Rooms, Infirmary, Supply Room, Dining Room with capacity for one hundred and fifty, Kitchen, Store Room, besides a number of small rooms for offices, consultation rooms and special work. The furniture in these various departments is of superior quality and in accordance with standard requirements. The building is steam heated, lighted with electricity, supplied with hot and cold water and has ample toilet facilities.

MCLEOD DORMITORY

Named in honor of Rev. R. A. McLeod, McLeod Dormitory is a two-story structure with fifty bed rooms designed to accomodate two students to each room. A large parlor on the first floor with a big open fireplace furnishes a comfortable lounging room and gives the building a touch of home life. New baths and toilets have been installed in the Dormitory. The building is steam heated and lighted with electricity. The rooms are equipped with single beds, bureaus, tables, chairs, and a closet for each occupant.

ATHLETIC FIELD

The recently completed athletic field is on the south end of the campus. It contains football, baseball and track layout. The soil is of a porous type and well drained, thus affording opportunity for year round outdoor sports. Fall practice for football begins immediately after the opening date of College, under the supervision of the Physical Director. A group of tennis courts near the dormitory furnishes opportunity for outdoor exercises for those who wish to play.

GYMNASIUM

A stucco and frame gymnasium, with a hardwood floor of standard dimensions and approved lighting facilities, was completed in January, 1934. This building, with a good seating capacity, is adequate for our physical education program and also furnishes the surrounding communities an excellent standard court for basketball tournaments and important games.

UPCHURCH APARTMENTS

A bungalow duplex apartment has been given by Mr. T. B. Upchurch of Raeford North Carolina. This adjoins the campus on the north and houses two faculty families.

PRESIDENT'S HOME

An attractive bungalow two doors from the college campus is owned by the college and serves as the home of the President.

LIBRARY

The Library contains 7,806 volumes. It is under the supervision of a librarian trained in library science who will assist the students in making the best use of the Library. It is fully equipped with chairs, tables and shelves. In the reading room will be found a goodly number of leading dailies, and a variety of the best weekly and monthly magazines and journals.

DINING ROOM AND KITCHEN

The dining room and kitchen are located in the basement of the administration building. They are well-lighted, comfortable rooms, fully equipped with modern facilities for preparing and serving attractive meals. An experienced and capable dietician is in charge, supervising the preparation of the meals and directing the dining room service.

RECREATIONAL FACILITIES

An outdoor oven and picnic grounds is provided in the park on the rear of the campus.

A ping-pong table is in the dormitory and equipment is available for intra-mural sports. The S. C. A. room is a lounging room for students.

CAMPUS LIFE

All parents and students are vitally interested in the campus life of the school which they choose. Important phases of life at Presbyterian Junior College are individual personal guidance, religious activities, social activities, athletics, health and physical education, and training in personal neatness.

INDIVIDUAL PERSONAL GUIDANCE

Each member of the faculty is assigned to serve as adviser for ten to fifteen students. It is the duty of each adviser to contact each student in his group at least once a month and to discuss with the student his mental, moral, physical and social development and to advise the student how he may overcome whatever problems may be confronting him. This counsel may take the form of suggesting the best study habits, referring the student to his professors for individual coaching, vocational guidance, constructive criticism of personal attitudes, and so forth.

In order to promote contact between faculty and students two faculty members live in each dormitory

To insure that each student will have opportunity for proper study a quiet time of two hours is observed in the dormitory each night. During this period each student is required to remain in his own room and study. Grades are given each week in order that each student may be posted regarding his scholastic progress. Faculty members are willing to provide some special coaching when it is needed.

Where distances are not too great, some member of the faculty seeks to visit a prospective student in his own home during the summer preceding his attendance in order to be prepared to do better counseling.

RELIGIOUS ACTIVITIES

The religious activities on the campus are conducted under the direction of the President. The Director of Social and Religious Activities and the Student Christian Association foster the religious life of the students.

Each day religious instruction is given in Chapel. The devotional is often conducted by members of the student body and members of the faculty. Frequently outside speakers are present for this program. Each night a voluntary prayer service is conducted by the students in one of the dormitory rooms. A vesper service is conducted each Sunday afternoon at the college. Attendance at the church service of one of the local churches is expected of the students each Sunday morning. In addition to this program at the college, a number of the students take active parts in the Sunday Schools, young people's organizations and mission chapels of the local churches. A new educational building has been completed by the Maxton Presbyterian Church.

SOCIAL ACTIVITIES

In cooperation with Flora Macdonald College, which is only twelve miles from Maxton in Red Springs, the college arranges a reception for the Flora Macdonald students early in the year under the auspices of the Student Christian Association.

Dancing is not permitted on the college grounds nor sponsored by the college. Any student organization sponsoring social gatherings off the campus is required to submit all plans to the Dean of Students who takes careful oversight to insure proper chaperonage and exemplary conduct.

Periodically, throughout the year, the Director of Student Activities provides social gatherings on the campus in

the form of receptions, musicals, picnics, barbecues and weiner roasts and more or less formal dinners.

MUSIC

Students interested in music participate in the Glee Club or orchestra under trained directors. For further information see page 61.

ATHLETICS

Teams trained under the supervision of the Director of Physical Education and his assistants participate in inter-collegiate contests in football, basketball, baseball, tennis and track. Believing that the athletic program should be maintained for the benefit of the students rather than as an advertising scheme for the school, no part of the student aid is granted on the basis of athletic ability so that the athletics are kept on an amateur basis in order that every student may have an opportunity to participate in them.

HEALTH AND PHYSICAL EDUCATION

Every student is required to take some form of outdoor exercises. Opportunity for satisfying this requirement is offered in the intramural sports program offered under the direction of the Director of Physical Education assisted by members of the faculty. This program includes such sports as softball, touch football, soccer, volley ball, basketball and tennis. Every student has an opportunity of participating in these games.

Two afternoons each week all students take part in mass games. This meets the requirements of the Navy V-1 program. Students are required to furnish standard gymn suits, which may be purchased at the student store.

The College physician has oversight of the health of the students and is on call at all times. The Matron is in

charge of the infirmary which is well arranged with adequate medicines and equipment.

PERSONAL NEATNESS

An endeavor is made to instill into each student a sense of personal neatness. Every student is required to clean up his own room. Inspections are held from time to time. Proper dress is required of all students at the dinner hour.

EXTRA CURRICULA EXPENSES

Life at Presbyterian Junior College is full of interest and satisfying activity. The student finds a well-rounded program which stimulates his growth in body, mind, experience and in spirit. With this program in operation as a part of the regular services of the college, the spending money needed by the average student for extra curricula activities is far below the needs of students at many schools. An allowance of from 25c to \$1.00 a week is ample for spending money.

“Too frequently religious education has been regarded as a thing apart. Rather it is the natural and logical conclusion of all education, just as religion is the natural and complete expression of man’s being.”—Hornes Psychological Principles of Education.

A registration fee of \$5.00 is required from each student before a room reservation can be made. This fee is not refunded unless the student actually attends for the session for which the reservation is made. In event the student does attend, this fee is used as the Damage Deposit required of all students as a guaranty fund against damage to college property. Each student is fully responsible for any damage caused by him to college property. Unless it is necessary

to charge uncollected assessments against the Damage Deposit it is refunded to the student immediately after the close of the school year.

A diploma fee of \$5.00 will be charged to each graduate.

New textbooks may be purchased from the Business Manager's office at prices listed after each course description. A limited number of used textbooks are available at 60% of new prices.

The fixed expenses for the entire year are twice the amounts for one semester listed above; namely, \$395.00 for boarding students and \$165.00 for day students.

Due to the uncertainties of war, the College reserves the right to make changes in charges upon thirty days notice.

Write for Summer School information.

PAYMENT OF ACCOUNT

The entire charges for the semester are normally payable each semester in advance. Arrangements may however be made with the Business Manager for quarterly or monthly

the ministry and sons of ministers or missionaries. Papers for making application for employment or a scholarship may be secured from the Business Manager, and, after action of the Scholarship Committee, these applications will be approved by him in writing. In order to receive consideration these applications must be accompanied by the room reservation fee of \$5.00.

The administration is not in sympathy with any system of getting something for nothing or dole system and therefore only expects to pay employees for value received; therefore each student will be expected to earn the amount of student aid granted him by hard honest labor on the project to which he is assigned. We believe this attitude is consistent with our efforts to develop Christian character.

The administration reserves the right to cancel any aid grants where the student fails properly to perform the duties assigned or proves unworthy of the grant made by failure to cooperate with the policies and ideals of the college.

REQUIREMENTS FOR ADMISSION

GENERAL

Every applicant for admission must present satisfactory evidence of good moral character. The filing of an application for admission shall be regarded as both evidence and pledge that the applicant accepts the rules and regulations of Presbyterian Junior College and agrees to abide by them.

Each applicant must apply on an application blank furnished by the college and pay a regular room reservation fee. The applicant must fill out a Matriculation Blank and upon it furnish an official record of work completed at other schools.

FOR ADMISSION TO THE SENIOR HIGH SCHOOL DEPARTMENT

The applicant must present evidence of having completed the ninth grade with a minimum of six high school units including one unit in English and the one unit in Biology required by the State Department of Education in North Carolina.

FOR ADMISSION TO THE COLLEGE DEPARTMENT

Applicants must furnish evidence of having graduated from an accredited high school with a minimum of 15 units as follows:

REQUIREMENTS FOR GRADUATION

FROM THE HIGH SCHOOL DEPARTMENT

A high school diploma will be given to students who complete with their previous high school record a minimum of 16 units in accordance with the standard requirements of the North Carolina Department of Public Instruction.

A certificate will be given to students completing the course of study outlined for the twelfth grade after graduation from high school.

FROM THE COLLEGE

An Associate in Arts or Associate in Science Diploma will be given to students completing one of the prescribed courses of the college department with a minimum of sixty-eight semester hours credit and a minimum of seventy-five merit points. (Merit points are awarded as follows: for a mark of "A," 3 merit points for each semester hour are given for the course; for a mark of "B," 2 merit points for each semester hour are given for the course; for a mark of "C," 1 merit point for each semester hour credit given for the course).

FROM TERMINAL COURSES

A diploma is awarded to students satisfactorily completing the Junior College Academic course or the Associate in Business Administration course. Students satisfactorily completing the one year business course or the one year merchandising course are awarded a certificate.

COURSES OF STUDY

PREPARATORY DEPARTMENT

ELISE SENIOR HIGH SCHOOL

Presbyterian Junior College offers the last three years of high school work in the Preparatory Department. The Twelfth Grade gives a thorough review in fundamentals in order to better prepare for the exacting work in leading universities and in West Point and Annapolis. A student who has omitted language or some other course required for college entrance may make up the deficiency while progressing in other studies. The educational values in a well conducted preparatory school have long been recognized in America and abroad. The Preparatory Department provides for the boy whose parents desire for their sons a thorough academic training under college instructors and with a distinctively Christian environment and emphasis. By attending Preparatory School, especially during the summer accelerated program, a young man may finish high school earlier and have time to finish college before becoming subject to military service. Due to the uncertainties of times of war, the College reserves the right to make such changes in the program as shall be advisable or necessary.

Student Lounge

Biology Laboratory

Tennis

MATHEMATICS 21—ANALYTICAL GEOMETRY

Covers the fundamentals of Plane and Solid Analytical Geometry.

Three hours a week through the year. Credit, six semester hours.

Prerequisite: Mathematics 11, 12.

Text: Coordinate Geometry—Fine & Thompson \$2.20
MISS EDWARDS

MATHEMATICS 22—CALCULUS

Differentiation and integration. A study of rates, maxima and minima, velocity and acceleration, areas and volumes, with emphasis on mechanical and physical applications.

Pre-requisite: Mathematics 21.

Three hours a week—Second Semester.

Credit: Three Semester Hours.

Text: Calculus—Phillips.

MISS EDWARDS

MATHEMATICS 31—MECHANICAL DRAWING

Projections and perspective. Special emphasis on the technique of careful and exact drawing. Laboratory fee \$5.00. Student must furnish own equipment. Blueprint reading.

Two recitations and four drawing room hours each week. Credit, four hours.

Text: Engineering Drawing—French \$3.35

MR. HAIGOOD

MATHEMATICS 32—DESCRIPTIVE GEOMETRY

Two recitations and four drawing room hours each week

Prerequisite: Mechanical Drawing Mathematics 11, 12 and 31.

Laboratory fee \$5.00. Student must furnish own equipment.

Credit, four hours.

Text: Applied Descriptive Geometry—Warner

MR. HAIGOOD

VII. NATURAL SCIENCE

Biology

BIOLOGY 11, 12—GENERAL BIOLOGY

This course is a class room and laboratory study of the fundamental questions and principles of biology. It includes the study of the cell, differentiation, division of labor, anatomy and physiology of the organs and system, reproduction and development of the individual, genetics, classification and environment influences on animals.

Two recitations and four hours laboratory each week. Credit, eight semester hours. Elective for sophomores.

Text: To be selected.

Chemistry

CHEMISTRY 11, 12—GENERAL INORGANIC CHEMISTRY

The principles of Inorganic Chemistry are studied and discussed in class and laboratory. The purpose of the course is to prepare the student for the more advanced study of Chemistry.

Two recitations and two laboratory periods of two hours

each week throughout the year. Credit eight semester hours.

Text: General College Chemistry, McPherson Hender-
son \$5.70.

MR. FERRENE

CHEMISTRY 41, 42—ORGANIC CHEMISTRY

Elementary Organic Chemistry. For chemical students and students specializing in Pre-dental science. Meets the demand of dental college. Prerequisite: Chemistry 11 12. Credit, eight semester hours.

Text: To be selected.

MR. FERRENE

Geology

GEOLOGY 12—INTRODUCTION TO GEOLOGY

One semester will be given to an introduction to general geology. The course gives the student acquaintance with one of our leading fields of science and appreciation of the Earth and its physical features.

Three hours of class work and two hours of laboratory a week. Credit, four semester hours.

Text: College Geology Part I—Chamberlain & Salisbury
\$3.25

Physics

HIGH SCHOOL PHYSICS 12A1, 2

An introduction to the physics of mechanics, heat, electricity, light and sound.

Three hours a week throughout the year. Credit, one high school unit.

Text: New Practical Physics—Black & Davis \$1.80

MR. McARTHUR

COLLEGE PHYSICS 11, 12

A study of the mechanics of solids, liquids and gases, and the study of heat, electricity, and light.

Three hours a week and four hours laboratory period throughout the year. Credit, eight semester hours.

Text: College Physics, Stewart \$4.00

MR. McARTHUR

The Aims of the Department of Physical Education are:

1. To see that each student gets sufficient exercise to insure good health.

2. To direct them to maintain good health through later years through their knowledge of personal hygiene.

3. To develop skill in and wholesome attitude toward such recreations as may be carried over into later life.

Physical examinations, conducted by the college physician and by the Director of Physical Education are required of all students at the beginning of each fall semester. Students whose examinations reveal an impairment of any vital organ or whose general physical condition warrants careful supervision shall only be permitted to engage in athletic activities at the discretion of the Director of Physical Education.

All students will be required to take a minimum of 180 minutes of physical exercise each week unless members of varsity athletic squads or excused by the college physician.

Mass games will be conducted two hours each week.

GENERAL REQUIREMENTS

One of the largest benefits the student receives from his college training is the opportunity afforded him to learn self-control, self-direction and proper regard for the rights of others. All discipline at Presbyterian Junior College is maintained with this fundamental fact in view, and is intended to aid the student in realizing these traits of strong and helpful manhood.

1. New students should arrive in time for the aptitude tests on the first registration day at 2 P. M. Every student is expected to be present for the first classes and under no circumstances should he arrive later than the Formal Opening of College on Wednesday, September 9, at 10:00 o'clock. He should attend all college chapel services, Sunday morning services at church, and all assignments for class periods and laboratory duty to the close of the session. After registration ends a charge of \$1.00 per day up to \$5.00 is made for late registration.

The first meal served at the college will be dinner at 6:30 P. M., on the first registration day.

2. Students are not allowed to be absent from the College Community without permission from the Dean or his assistant. Except in cases of emergency or by special arrangement, all requests for leave of absence must have the approval of the parent or guardian before the request will be granted. Frequent trips materially hinder the student's educational progress and are therefore strongly discouraged by the College. It is hoped that parents will cooperate by encouraging the students to remain with his college duties. When a student withdraws from the college voluntarily he must see the Registrar, Business Manager, and President to obtain honorable dismissal.

3. A study period is observed each evening after supper except on Saturday and Sunday. During this period the student is expected to remain in his own room and apply his time to the preparation of his class assignments.

4. Students desiring to borrow books from the Library will report to the Librarian, who will make proper record. Books must be returned, or a new record made, within two weeks. Reference books will not be allowed out of the Library.

5. Grading for scholarship record will be upon a scale of 100. The grade will be determined by a combination of daily recitations, monthly tests and final examinations. The passing grade will be 70. A grade of 75 carries a recommendation for advanced college work. Students conditioning on a subject will be allowed one re-examination on that subject. The student will be charged \$1.00 for each re-examination. A second failure will mean that the subject will have to be taken over in class in order to obtain credit for it. A—Excellent, 93-100; B—Above Average 83-92; C—Average, 75-82; D—Low Pass, 70-74; E—Condition, 65-69; F—Failure; I—Incomplete.

6. Within six weeks after the opening of the first semester, a report on each student's progress will be sent to the parent or guardian. Further reports will be sent only in cases where they are requested. A term report will be sent at the end of each semester giving final grades for the semester.

The friendly cooperation of the parents in helping to keep each student's grades up to the highest possible point is earnestly sought. A kindly word of encouragement from

home often works wonders with a student whose grades are too low.

7. No student shall be allowed to take trips for athletics or major student activities until he is passing nine semester hours from the end of the previous stated report period. No student shall be allowed to take part in more than one athletic or major student activity until he is passing an additional three semester hours for each additional activity.

8. Rooms will not be reserved for students until their registration fee of \$5.00 has been paid. Assignment of rooms will be made in the order in which the registrations are received. All rooms are designed to accommodate two students. No student is allowed to transfer from one room to another without permission from the Dean of Students and the Business Manager.

9. Proper and manly deportment in the dining hall will be required. The Dietitian will be in charge and all students will be subject to her directions during the meal hour. No dormitory student will be allowed to take meals regularly outside the college dining hall except upon recommendations of the college physician.

10. Parents and out of town friends desiring to call on students or faculty members will be welcomed to the College dining room for one meal as guests of the College. But those desiring to make a visit covering a period of two or more meals will be charged the nominal fee of fifty cents for each additional meal or one dollar per day. Arrangement and settlement for such meals should be made with the Dietitian.

11. For the convenience of the students, the College will operate a Book and Supply store. It will be operated on a strictly cash basis. No exceptions can be made to this rule.

The student store devotes any profit at the end of the year to some student activity project.

12. Students furnish their own bed clothes and toilet articles. We recommend that the following articles be brought. Four single sheets, one pillow and two pillow cases (medium size), two blankets, two spreads, six bath towels, necessary toilet articles, a cheap rug, a runner for his bureau and inexpensive curtains for a single window (4'x6'). All washable articles should be carefully marked to avoid losing in laundry. Gym suits of standard design may be secured at the student store.

13. The college gladly furnishes medical treatment and care for usual cases in the college infirmary but will charge to parents any special prescriptions and consultant service and X-Rays and operations at cost. The college is not liable for injuries sustained on the college campus or on athletic trips.

14. While a damage deposit is required, it is intended to cover incidental damage only. Malicious damage is dealt with separately. No student is allowed to remove college equipment from the room in which it is located except upon written permission from the Business Manager. No addition or alteration to the building or equipment is permitted.

15. No out of town student can board or room off the college property without special permission, granted by faculty action.

16. If, at the end of the semester, a student fails to pass as many as six semester hours of credit he may be automatically dropped from the school roll. (See number 24.)

17. All regular students are required to carry fifteen hours of college work per week and may take as many as

eighteen. No exceptions are allowed to these rules except where it can be clearly shown to the committee on standards that less than fifteen hours is to the advantage of the student. Only in exceptional cases, where previous record has warranted, will a student be allowed to enter later than two weeks after the first meeting of classes.

18. For the sophomore classification, thirty semester hours of credit will be required.

19. Two-thirds of the recitations in each subject must be attended in any course upon which credit is allowed.

20. Reexaminations must be taken at the first scheduled reexamination period after the condition grade was made. See calendar on page 4.

21. Excuses for anticipated absences must be obtained from the Dean of Students before the absence occurs. Any student having an unexcused absence may receive zero for the recitation from which he is absent.

22. At the end of each six weeks period an honor roll consisting of the names of all students averaging "A" and a Dean's List consisting of the names of all students who have an average of "B" for the period will be posted. All students whose names appear on the Honor Roll shall be entitled to a total of three absences without excuse during the following six weeks period. All other students whose names appear on the Dean's List shall be entitled to a total of two absences without excuse during the following six weeks period. These privileges shall not be cumulative.

23. The administration reserves the right to modify any or all requirements, without notice, in the interest of the school or its patrons.

24. At any time during the year, by faculty vote, a stu-

dent may be required to transfer from a sophomore to freshman course or from a freshman to college preparatory course because of inability or lack of preparation to carry the higher work.

25. Presbyterian Junior College does not receive young ladies as boarding students. Young women who are in driving distance may attend as day students. A letter should be addressed to the college asking admission and the faculty will act upon such application. Since there is no dean of women the administration reserves the right to ask any young woman to drop out of school, should it seem wise, without giving any reason and without implying any censure upon the student. Young women are not eligible for student body offices.

26. The following discipline rating system has been worked over by the faculty. It is subject to revision by the faculty but will govern until changes are announced.

POINT SCORES

Church Cut—4 points. Excess over 5 cuts, double points.
 Chapel Cut—1 point. Excess over 18 cuts, double points.
 Class Cut—3 points. Excess over 3 in each subject, 10 points.
 Tardy Class, third time, 3 points.
 Cuts Before and After Holidays—Double points.
 Cuts Study Hall—15 points.
 Tardy Study Hall—5 points.

PENALTY SCORES

For unnecessary and wilfull absences, the Dean may assign double points.
 Excess 50 Points—2 weeks campus.
 Excess 60 Points—2 weeks additional campus.
 Excess 70 Points—Suspension for remainder of semester.

Breaking Campus—Immediate suspension for remainder of semester.

DAY STUDENT PENALTY SCORES

Excess of 25 Points—Letter to parents.

Excess of 31 Points—One week suspension.

Excess of 46 Points—Suspension for remainder of semester.

Maximum points for any misdemeanor to be assigned by Professor (exclusive of Dean)—5 points.

Each student being placed on campus must meet Discipline Committee.

Excused absences will be granted those making Dean's List and Honor Roll, absences to be taken within six weeks period following posting of these lists.

For every campus or suspension, a letter is to be written to the parents from the Dean.

The major disciplinary problems are handled under the Honor System by the students themselves through their duly elected representatives on the Student Council. Actions of the Student Council are subject to review and approval by the faculty.

STUDENT GOVERNMENT REGULATIONS
